Elevation—2600 Feet

MOUNTAIN GROWN

TREES SHRUBS VINES

A SPECIAL MESSAGE

To Our Farm and Garden Friends:
War time is here. Gardening time is approaching. How to reconcile the war duties with proper garden attention is a problem. Yet the home with its surrounding grounds—that piece of earth owned and enjoyed by you and your loved ones—is what we are fighting for. So perform your war obligations, then keep the home place up so that on his return he will feel that it really was worth fighting for.

Plant a tree—that symbol of the right to live—for each loved one in the service, a living, breathing thing that in itself fights for its place in the sun. Yes, maintain the American home in every way in its beauty, its comforts and its welcome.

The Felix Gillet Nursery.

Please Observe the Following When Ordering

TERMS—Cash with order, or on orders placed long in advance of shipping date, 25% cash will hold same. Expense of handling will not permit acceptance of **tree orders** for less than \$1.00, except where so stated or, unless called for at the nursery. Except where marked **Postpaid**, **Parcel Post charges must be included**; any excess will be refunded or extra plants sent for same. Freight and express are paid by purchaser, except as noted.

(ORDER BLANK ON PAGE 15)

Where 10 ornamental trees or shrubs of one variety are ordered 10% reduction from list prices.

SHIPPING SEASON—Trees and plants with bare roots, such as fruit trees, shade trees, deciduous shrubs, etc., Nov. 15th to May 1st. Such stock should be planted as early as possible. Balled plants and those in pots, cans or boxed; any time of the year. **FILBERTS**—Nov. 15th to March 1st, some years as late as March 25th. Movement of nursery stock is governed by weather conditions.

SUBSTITUTIONS—None made unless so instructed. Indicate second choice if possible.

ADJUSTMENTS—We promptly and cheerfully correct any errors made by us, if promptly advised on receipt of stock.

Prices in This Catalog Supersede All Previous Quotations and are Subject to Change.

\$10.00 ORDERS FOR ORNAMENTALS

PREPAID WITHIN 4th PARCEL POST ZONE

Many plants through the catalog are priced **PREPAID**, when not so marked and ornamental plant order amounts to \$10.00 or more, transportation will be **PREPAID** to your nearest Freight, Railway Express, or Parcel Post destination, if cash accompanies the order, except on balled evergreens, on which one-half transportation will be paid. (Route at our discretion.) Fruit and Nut Trees, when ordered with and in excess of \$10.00 worth of ornamentals will go prepaid. All other plants of mailable size may be had by P.P. within 4th Zone, by adding 15c per plant. Any excess payment will be refunded or extra value in plants sent. Unless pruned back, trees 4 to 6 ft, and larger, not mailable. Combine orders with your neighbors and save transportation charges.

SHOWY FLOWERING TREES

ALBIZZIA. Persian Silk Tree

A. Julibrissin. "Pink Acacia." 30 ft. Handsome shade and avenue tree highly adapted to California conditions. Fine feathery foliage, pink fragrant flowers in great profusion from July to October. Stands winter as far north as Portland, Oregon. Gal. cans, 50c.

CREPE MYRTLE

Crepe Myrtle. 15 ft. Should have a place in every garden. Leaves are bright green, turning a bright red in fall; flowers produced in utmost profusion at ends of branches during late Summer and Fall. Plant in full sun. Prune half the new growth each winter to shrub or small tree. **Pink, Lavender, Red**, balled, 2 to 3 ft., \$1.00. **Dwarf Red**, 18 to 24 inch, 85c.

FLOWERING CHERRIES

Kwansan. 20 ft. Of upright growth, medium size tree. Flowers double pink, rated as the finest double pink. Bare root, 2 yr., 4 to 6 ft., branched, \$2.00.

Shirotae (Mt. Fuji). The best double white. Flowers are large and double. Foliage light green. Bare root, 3 to 4 ft., \$1.25.

Weeping. Single Pink. Small ultimate size as its branches weep straight down. Clothed with lovely shell-pink flowers. 3 yr. 6 ft. stems, \$3.00, plus 25c packing if to be shipped.

FLOWERING CRAB APPLES

Single Carmine Red. Double pink. Dwarf Parkman pink. All colors. 4 to 5 ft. bare roots. \$1.00 each.

FLOWERING PEACH

Double Red. Late flowering. 4 to 5 ft., 85c.

Double White. Large flowers, exquisitely lovely. 5 ft., 90c.

Helen Borschers. Very large and handsome double pink. 4 to 5 ft., 85c.

Double Cerise. Very fine. 4 to 6 ft., 85c.

Weeping. Semi-double red. Very interesting. Top grafted to give weeping branches. 4 to 5 ft., \$2.00.

PURPLE-LEAVED FLOWERING PLUM

P. pissardi. "Purple Leaf Plum." Leaves deep purple in spring, holding purple longer than any other purple leaf tree. Flowers numerous, white-tinted pink. Fruit reddish-purple; can be used for jams. Bare roots, 5 to 6 ft., 90c.

DOGWOODS

Cornus Mas. "Cornelian Cherry." 15 ft. A handsome, large, dense growing shrub or tree, with foliage of graceful shape and pleasing dark green color. Bright yellow flowers borne in great profusion in early spring give way to red cherries size of olives. 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.25; 5 to 6 ft., \$1.50.

Cornus florida. "White Flowering Dogwood." Maine to Gulf States. Shrub or small tree. Foliage wavy, whitish underneath; Crimson in Fall; flowers White, three to four inches across before leaves appear. Gall. cans, 2 to 3 ft., \$1.25; 3 to 4 ft., \$1.75.

Cornus Florida Rubra. "Pink Flowering Dogwood." Deep pink flowers, 2 to 3 inches wide, cover the tree before foliage appears in spring. The most beautiful of the Dogwoods. Gallon cans or balled, 18 to 24 in., safe to transplant, \$1.75; 2 to 2½ ft., \$2.25.

***Cornus Nuttall.** "Pacific Coast Dogwood." Splendid tree or shrub for shady places, with profusion of very large white flowers. The red seeds add to its fall beauty when foliage develops its rich red hues. Bare roots, 4 to 5 ft., \$1.75; 5-ft., 5-gal. cans, \$2.75.

HAWTHORNS

Paul's Double Scarlet. 15 ft. Flowers deep crimson-scarlet; very double, followed by bright red berries. Bare roots, Whips, 2 to 3 ft., 60c; 3 to 4 ft., 70c; 4 to 5 ft., 80c; 5 to 6 ft., 90c. Add 25c if wanted with earth-ball.

Crataegus oxyacantha. "Single White Thorn." A clod of fragrant white bloom in spring; myriads of bright red berries in fall. Bare roots, 2 to 3 ft., 35c; 3 to 4 ft., 50c; 4 to 5 ft., 60c; 5 to 6 ft., 75c; 6 to 7 ft., \$1.00.

Crataegus carrieri. "Carrier's Thorn." Small, pyramidal tree with single white flowers of great beauty with large, waxy berries of brilliant scarlet, the size of cherries which stay well into the winter. Always attracts attention. 2 to 3 feet, 3 to 4 feet, same price as Paul's Scarlet.

REDBUD OR JUDAS TREE

Cercis canadensis. "American Redbud." Small tree, every twig of which is covered with little pink, pea-shaped blossoms in early spring. Bare roots, 2 to 3 ft., 75c; 3 to 4 ft., 85c.

***Cercis occidentalis.** "California Redbud." 15 ft. An exceedingly showy small tree in early spring when covered with small bright cerise flowers. Easily naturalized in canyon or hillside, growing without care and producing a brilliant effect in the spring. Bare roots, 12 to 18 inch, 75c; gallon cans, 50c.

* Means Native of California.

CONE BEARING EVERGREEN TREES

Everybody's Choice, Because Meritorious — Described in Fine Print

← COLORADO BLUE SPRUCE

Kosters Blue. The best blue. Grafted stock, but of irregular growth while young. Balled 2 to 2½ ft., \$6.00.

Blue Seed Grown. Always regularly branched. Balled 15 to 18 inch, \$3.75.

ARBOR VITAE

Pyramidal. Densely columnar type, compact and erect to 12 feet, with base of 30 inches. Foliage a deep green. 24 to 30 inch, \$2.75; 3 to 4 feet, \$3.50.

Globe. A dwarf, dense, globular bush. Use to accent entrances, gateways, etc. 12x12 inches, \$2.25.

Berkmann's Dwarf Golden. Dwarf compact shrub; foliage bright permanent yellow. Fine as low accent plant and in tubs. Gallon cans, 85c; 15 to 18 inch, \$2.00; 24 to 30 inch, \$2.75.

CYPRESS

Arizona. 40 ft. Beautiful bluish-green cypress of narrow, pyramidal form. Suitable to the hot dry sections of the interior. 2 to 3 feet, 75c; 3 to 4 feet, \$1.25; 4 to 5 feet, \$1.50; 5 to 6 feet, \$2.50.

Italian. Tall, slender growing, straight branches lying close to the stem; for formal effects. Gallon cans, 50c; 4 to 5 feet, \$2.50; 5 to 6 feet, \$3.25.

HARDY PROSTRATE JUNIPERS

Sizes Determined by Spread, Not Height

Trailing Chinese. Prostrate creeping variety. Blue green foliage, making mat close to ground. 8 to 12 inch, 75c; 15 to 18 inch, \$1.25.

Andorra. Exceptionally fine prostrate juniper. In spring and summer, bright green, changing in winter to rich purple-bronze. 12 to 15 inch, \$1.00; 15 to 18 inch, \$1.25; 18 to 24 inch, \$1.75.

Shore. A new creeping juniper which makes a dense mat of sea-green foliage close to ground. 18 to 24 inch, \$1.75; 24 to 30 inch, \$2.25.

Waukegan. A creeping sort of soft blue foliage, not over six inches high. Rare and distinct from any other sort. Plentiful silver berries. Grows slowly. B.B., 12 to 18 inch, \$1.25.

Tamarix. Very fine creeper, seldom more than one foot high, with a spread of 6 to 8 feet. A compact mat of gray-green. 8 to 12 inch, 60c; 12 to 15 inch, 85c; 15 to 18 inch, \$1.25.

SEMI-PROSTRATE JUNIPERS

Armstrong's Spreading Juniper. A fine new dwarf evergreen making dense mass of soft, gray-green foliage, about 2 feet high and 5 feet across. Thrives in sun or shade. 18 to 24 inch, \$2.25; 24 to 30 inch, \$2.75.

Pfitzers Juniper. One of the finest Junipers in cultivation. Of bushy wide-spreading, graceful habit, and with bluish-green foliage. 8 to 12 inch, 50c; 12 to 18 inch, 85c; 18 to 24 inch, \$1.25; 24 to 30 inch, \$1.75; 30 to 36 inch, \$3.00.

Golden Juniper. 3 feet. A golden-foliaged plant, spreading six to eight feet, but not over two feet high. Can be kept smaller by trimming. Excellent in front of taller conifers. 8 to 12 inch, 50c; 12 to 15 inch, \$1.00

ILEX (HOLLY)

"English Holly." 15 ft. Dark green elegant waved, prickly leaves, grafted from trees that berry heavily. **One male plant is sent with each grafted female tree,** which should be planted in the same hole or near the grafted plant. **Prices per pair** (size given is that of female tree—male plants will be smaller): 12 to 18 inch, \$1.75; 18 to 24 inch, \$2.00; 24 to 30 inch, \$3.00; 30 to 36 inch, \$4.00. **Male plants** at 40% less than quoted prices.

English Holly. Silver Variegated Leaf. Beautiful shrub for part shade. Small plants, 85c to \$1.50. **Golden Variegated Leaf.** Grafted plants, gallon cans, \$1.25 to \$2.25.

"Chinese Holly." 15 ft. Leaves similar to English Holly but rectangular. Big red berries. Stands more heat than English. **Grafted female plants:** 8 to 12 inch potted, 85c; 18 to 24 inch, \$1.50.

LAUREL

English Laurel. 15 ft. Small tree or large bush. Very large, glossy, evergreen foliage, beautiful both summer and winter. For sun or shade. 18 to 24 inch, 85c; 24 to 30 inch, \$1.25 and \$1.50; 30 to 36 inch, \$2.25.

Gold Dust Laurel. "Aucuba." 6 ft. Leaves sprinkled with yellow dots. Excellent for tub culture or planting in shade. Pots, 6 to 8 inch, 35c; 12 to 18 inch, 75c; 18 to 24 inch, \$1.00 up. Will set large berries with male plant—75c each.

Oregon Grape. "Mahonia." 6 ft. Dark green leaves, coppery purple during winter. New growth glossy. Flowers bright yellow. Blue berries from which a fine jelly is made. Hardy. For sun or shade. 12 to 15 inch, 75c; 15 to 18 inch, 85c. Heavier grades, \$1.00 to \$2.00.

Oregon Grape. *M. ilicifolium compacta. A new variety with foliage like Oregon Grape, though somewhat lighter in color; growth dwarf and compact, making it a fine little shrub for foundation planting. Balled, 8 to 12 inch, 75c; 12 to 18 inch, \$1.00.

Nandina domestica. "Heavenly Bamboo." 5 ft. Not a bamboo but is made up of a number of canes densely clothed with compound leaflets, bronzy red when young, dark green at maturity, and beautiful coppery red tones in winter. Sun or shade; clusters of red berries in winter. 6 to 8 inch, 40c; 8 to 12 inch, 60c; 12 to 18 inch, \$1.00.

DECIDUOUS FLOWERING SHRUBS

AZALEA

Altacolare. Deciduous. 4 ft. Brilliant yellow. Large flowers. Foliage red in autumn. 8 to 12 inch, \$1.00.

Mollis. Deciduous. 5 ft. Orange, apricot, yellow shadings. Large flowers in showy abundance. With flower buds. 9 to 12 inches, \$1.00; 12 to 15 inches, \$1.75.

Kurume. Evergreen. 3 ft. Hardy to 15° above zero. Glorious blooms in early spring. White, apple blossom pink, red, salmon. 6 to 8 inches, 50c.

BARBERRY

Thunbergi. "Japanese Barberry." Small green leaves turn glorious orange, yellow and red in fall. Berries bright red, staying well into winter. Easily pruned to globe shape. Fine for low hedges. Small plants for same, \$15.00 per 100; 12 to 18 inch, 35c; 18 to 24 inch, 50c.

Thunbergi. (Red Leaf Barberry). 4 ft. When planted in full sun, a rich purple all summer, and in fall fiery red and orange coloring. Pendant red berries. A beauty at all times. 12 to 18 inch, 50c; 18 to 24 inch, 75c.

Verruculosa. "Chinese Dwarf Barberry." 3 ft. Zero. Fine new variety makes a low mound of dark green, grey beneath. Evergreen all climates, in cooler climates turns gorgeous red. Full sun. Golden flowers in spring. 12 to 18 inch, \$1.35.

BRIDAL WREATH—SPIREA

Bumalda. "Anthony Waterer." Dwarf, erect form three feet high. Flowers bright crimson, in flattened heads. Blooms all summer. Very desirable. Pots and cans, 35c to 75c.

Reeves. 6 ft. Medium-sized shrub with long narrow leaves. Flowers pure white, large, borne profusely in dense heads. Practically evergreen. 4 to 5 ft., 85c. Same but with **Double Flowers** and evergreen foliage, 3 to 4 ft., \$1.00.

Thunberg. 4 ft. Feathery, light green foliage; flowers white, very profuse in May. Exceptionally good to use in small groups. Cans, 35c; 2 to 3 ft., 50c; 3 to 4 ft., 85c.

True Bridal Wreath. S. prunifolia flore pleno. Small shrub with long slender branches. Flowers very double and pure white, borne along the branches before the leaves appear. This is the genuine "Bridal Wreath." 2 to 3 ft., 75c; 18 to 24 inch, 50c; 12 to 18 inch, 35c.

Van houttei. 4 ft. Best form of hardy Spirea. A handsome pendulous bush. Flowers pure white. Fine for grouping and shrubbery borders. 2 to 3 ft., 50c; 3 to 4 ft., 75c; 4 to 5 ft., 85c.

CALYCANTHUS. Sweet Shrub

Floridus. 8 ft. Foliage dark green, flowers dark red. Fragrant flowers and leaves, free blooming. Artistic seed pods. 12 to 18 in., 40c; 18 to 24 in., 60c.

HYDRANGEA

Hortensis. 8 ft. Shade loving shrub, large foliage and immense heads of light pink flowers, which turn blue when grown in soil containing iron or acid. Gallon cans, 63c to 75c. **French Blue, French Pink,** with flower buds, \$1.50.

Paniculata Grandiflora. 6 ft. Wonderfully attractive with their massive white plumes. First snowy white, then pink, then reddish bronze and green, August till Autumn. Hardy, 12 to 18 inch, 50c; 18 to 24 inch, 85c.

SNOWBALL

Burkwood. 4 ft. New. Waxy white flowers of rare fragrance. Nearly evergreen. Gallon cans, \$1.00 to \$1.25.

Carlesi. A small pretty shrub with gray-green leaves. Buds rosy pink, waxy open blooms are creamy-white in a semi-sphere. Perfume is exquisite, somewhat like that of a gardenia. Gallon cans, \$1.35.

High Bush Cranberry. Broad, brilliant green foliage, turning red in fall. Large crimson berries which persist into the winter. Flowers white. 2 to 3 ft., 85c; 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.50.

Common Snowball. Very large balls of white makes large showy shrub. With high-colored fall foliage. 12 to 18 inch, 50c; 18 to 24 inch, 85c; 24 to 30 inch, \$1.00.

SNOW BERRY

Valued for their ornamental fruit, which remains on the plants all winter. Of slender growth, with fine foliage. Does well in part shade. Fine for covering banks. Deciduous.

Red Berries. 3 ft. **Pink Berries.** 5 ft. **White Berries.** 3 ft. 18 to 24 inch, 40c; 2 to 3 ft., 60c; 3 to 4 ft., 75c.

WEIGELA. Diervilla

4 to 8 ft. Trumpet-shaped flowers in profusion that is almost unequalled. Their striking foliage contrasts finely with other shrubs; for borders they are very effective. Prune after flowering in summer.

Pink. 2 to 3 ft., 75c; **Red Rathke.** 18 to 24 inch, 75c.

QUINCE. Flowering

Grandiflora. Very large red. **Salmon Pink.** Either kind: 18 to 24 inch, 85c; larger, \$1.00.

RIDE WITH US

Hop in, Save your tires and gasoline. Shopping by mail, is a TIRE-less and practical way to supply your complete gardening needs. So good and applicable to the times that we swiped the foregoing from "HORTICULTURE" published in Boston, Mass. at \$1.50 a year for 24 issues, and worth double that.

Where 10 ornamental trees or shrubs of one variety are ordered 10% reduction from list prices.

See Page 2 for PREPAID RATES

EARLY ORDERS BRING THE BACON

Well not really bacon, but if we get your order before February 15th, 1943, you'll find some extra plant or plants in the shipment. REASON: labor shortage, so we can co-ordinate the work to be done and serve you to better advantage.

A WORD TO THE WISE, etc.

If you possibly can do so anticipate all of your tree and shrub planting requirements of the next few years, this Spring. Nurseries generally throughout the country will be unable, for lack of labor, to set out usual plantings of young stock and care for them. This means that beginning with 1944 such things will be scarce and high. Right now they are at same prices or but slightly higher than during past few years. Practically all ornamental trees and shrubbery in our catalog are priced as recent years. SHADE TREES ESPECIALLY should be set out this Spring as at best they take a long time to cast much shade.

SHADE TREES

ASH

European Mountain Ash. 30 ft. Of erect growth. Flowers white, then clusters of large orange red berries. Scarlet leaves in autumn. Handsome at any season. Well branched, 10 to 12 ft., \$5.00; 8 to 10 ft., \$3.50; 6 to 7 ft., \$1.25; 5 to 6 ft., \$1.00. Protect this tree from borers.

American Mountain Ash. 20 ft. Similar to European except berries brighter red and somewhat smaller, 4 to 5 ft., \$1.00; 3 to 4 ft., 85c; 2 to 3 ft., 75c.

BIRCH

Canoe Birch. 30 ft. Has the whitest bark of all birches after a few years, with loose graceful head when older. Bark curls and peels giving an artistic touch. 10 to 12 ft., \$2.75; 8 to 10 ft., \$2.25; 7 to 8 ft., \$2.00; 6 to 7 ft., \$1.75.

Cutleaf Weeping Birch. 30 ft. White bark as European, leaves deeply cut, branches weep gracefully. An elegant tree on the lawn. Bare roots, 5 to 6 ft., \$1.50; 6 to 7 ft., \$2.00; 7 to 8 ft., \$2.75.

European White Birch. 30 ft. Spreading tree, gray-green foliage, slender branches. As the trees get older the bark becomes white and branches are often pendulous. Bare roots, 6 to 8 ft., \$1.25; 4 to 6 ft., \$1.00; 3 to 4 ft., 85c; 2 to 3 ft., 65c.

LINDEN

Silver Linden. 60 ft. Shapely and upright, dense, large heart-shaped leaves, dark green. Stands heat better than other lindens. Flowers yellow and fragrant. Bare root. Specimen trees, branched, heavy grade, 10 to 12 ft., \$5.00; 8 to 10 ft., \$4.00; 7 to 8 ft., \$3.50; 6 to 7 ft., \$3.00; 5 to 6 ft., \$2.00. Lighter grade trees, 8 to 9 ft., \$2.00; 7 to 8 ft., \$1.75; 6 to 7 ft., \$1.50; 5 to 6 ft., \$1.25; 4 to 5 ft., \$1.00; 2 to 3 ft., 50c.

Silver Leaf. Real Silver color on underside of leaf. Handsome two-tone effect. 2 to 3 ft., 75c; 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.25; 5 to 6 ft., \$1.50.

OAK

Pin Oak. 75 ft. Fastest growing of all oaks, easily transplanted; makes a dense, broad pyramidal head, branching horizontally; leaves pleasing green, deeply cut, turning red in fall; free from troubles. Protect from sun-scald and borers first few years. 1½ to 2 ft., 75c; 2 to 3 ft., \$1.00; 3 to 4 ft., \$1.25; 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.50.

MAPLE

Norway. 40 ft. Large round form tree, dark heavy foliage. One of the best shades trees for most any situation, 5 year transplanted 3 times, well branched, 10 to 12 ft., \$4.00; 8 to 10 ft., \$3.00; 7 to 8 ft., \$2.75; lightly branched, 8 to 10 ft., \$2.25; 6 to 8 ft., \$1.75; 5 to 6 ft., \$1.50; 4 to 5 ft., \$1.00.

Schwedlers. Purple Leaf Maple. 40 ft. Most beautiful of the large maples. Buds brilliant orange; young foliage coppery and mature leaves deeply stained with purple. Bare roots, 4 to 5 ft., \$1.50; 5 to 6 ft., \$2.00; 6 to 7 ft., \$2.25; 7 to 8 ft., \$2.75.

Silver Maple. 60 ft. Most rapid growing of all maples with large leaves silvery beneath. 10 to 12 ft., \$2.00; 8 to 10 ft., \$1.50; 7 to 8 ft., \$1.25; 6 to 7 ft., \$1.00; 5 to 6 ft., 75c; 4 to 5 ft., 50c.

Sugar Maple. 60 ft. At first this tree is slow but eventually grows fairly rapidly to large handsome specimens. Foliage turns red in fall. 4 to 5 ft., 85c; 5 to 6 ft., \$1.00; 6 to 7 ft., \$1.25; 7 to 8 ft., \$1.50.

PLANE. Oriental

European Sycamore. 60 ft. Grows rapidly into uniform tree. Bright green, leaves deeply cut. For quick and heavy shade. Heavily rooted transplants. 10 to 12 ft., \$2.25; 8 to 10 ft., \$1.75; 7 to 8 ft., \$1.50; 6 to 7 ft., \$1.25.

American Plane. 80 ft. Similar to Oriental Plane but less regular in habit of growth; deeply lobed leaves turning rich browns in fall. Heavily branched; 5 year, 14 to 16 ft., \$7.50; 12 to 14 ft., \$6.00; 10 to 12 ft., \$4.50; 8 to 10 ft., \$2.50.

California Sycamore. Native Plane. To some this is the handsomest plane tree. Similar in character to others listed. Transplanted. 9 to 10 ft., 1-1½ inch caliper, \$4.00.

POPLAR

Chinese. Splendid quick growing shade tree with large dark green leaves. Good everywhere. This tree "can take it." Branched, 10 to 12 ft., \$2.00; 8 to 10 ft., \$1.75; 7 to 8 ft., \$1.50; 6 to 7 ft., \$1.25.

ROSES

No. 1½ — Two-Year-Old Field Grown

Bush Roses — Will Bloom This Year — Bush Roses

REDS

Christopher Stone. One of the two best new red Roses of the past half-dozen years. Glowing, brilliant crimson-scarlet, with deeper dusky shadings as the flower ages. It never has a trace of blue at any time. The fairly long buds open into magnificent flowers of great substance with delightfully spicy fragrance. 50c each.

E. G. Hill. Immense flowers of lasting, dazzling scarlet, never fading or turning blue, but actually becoming deeper red as it opens. Borne on long stems, and are deliciously fragrant. There are few red roses which will rival E. G. Hill, for it is truly a magnificent rose.

Gypsy Lass. Of dark glowing scarlet-crimson. Of fine form and fragrance. A profuse bloomer. 50c each.

Marlar Ros. A new blood red of fine substance, lasting quality. Both in bud and open flower. 50c.

Red President Hoover. This sport of the President Hoover is much deeper in color with more red shades dominating. Otherwise with all the Hoover's magnificent qualities. 50c each.

Red Radiance. We repeat the splendid recommendations made for its sister variety Radiance, because this red Rose is exactly the same in everything except color of flower, which is a rich cerise-red. No rose will excel it in fragrance, growth or quantity of blooms.

Red Talisman. A striking red sport of Talisman has the same handsome form of Talisman buds but is maroon-red, opening to velvety blood-red with an overglow of amber. The color varies considerably with weather conditions and is at its best in cool weather. In the fall the blooms are magnificent. 50c.

Southport. One of the finest red Roses, being an exceedingly brilliant scarlet. A great quantity of lovely, slender buds on long stems; excellent for cutting and effective under artificial light. Opens quickly into a good sized, loose, perfumed bloom. Strong growing. 50c.

PINK SHADES

Cathrine Kordes. Long pointed bud of pink verging on cerise, opening to large, deep pink, sweet scented blooms on long stems. Lasting when cut.

Imperial Potentate. A clear shining rose-pink. Beautiful form and lasting qualities. It is possibly the most highly perfumed rose grown. When you bury your nose in a bloom of Imperial Potentate you are amazed at the concentrated sweetness that one bloom can possess.

Lulu. This Rose has great quantities of dainty, long, slender buds of coral-apricot with which the bush is covered at all times. There is not a Rose more exquisitely formed in the bud stage than Lulu.

Picture. Rated one of the very finest pink Roses. Plant is vigorous and produces one continuous burst of bloom through the season, every bud is perfectly formed. The pink color has warm undertones of salmon. The flowers a sweet Tea fragrance. 50c each.

The Doctor. This glorious great light pink flower has made a place for itself by the sheer beauty of the enormous, delicately colored, heavy petalled pink blooms, which are so big sometimes you can hardly believe them real—6 inches across with buds in proportion. Exquisite, silvery pink flowers, with intensely sweet fragrance. 50c each.

WHITE

McGredy's Ivory. HT. Creamy ivory-white, turning to clear white as they open; occasionally has a faint pink flush in the center in cool weather. The buds are as perfect as Roses can be; flowers possess a delicate Damask perfume.

Caledonia. The purest white among Hybrid Tea Roses. Beautifully shaped, long buds are exquisite and fragrance is delicious.

Multi-Colors

Autumn. Full handsome buds are a superb burnt-orange, the opening flowers heavily suffused with russet-brown and bronzy red all over-laid on a background of rich yellow in a color combination of glorious autumnal foliage. Deliciously fragrant.

Hinrich Gaede. Without doubt one of the best roses introduced in recent years. Rosy copper with brilliant orange tones which hold until the last petal drops. Buds extra large, of good form, borne singly on long strong stems. Blooms freely and the dark glistening foliage is very resistant to mildew.

Mme. Joseph Perraud. The enormous big-petalled, perfectly formed buds of nasturtium-buff, lightening to a luminous pink at the edges of the petals, and with a glowing orange heart, are always perfectly formed. This Rose started out as "The Perfect Rose," and it is one variety that has lived up to preliminary ballyhoo. Magnificent in form and color and loads of flowers, 50c each.

Talisman. A vividly colored rose justifies all of the fine things that have been said about it. The brilliant coloring is a mixture of orange-scarlet and golden yellow in irregular proportions. Very double, exquisitely shaped, borne on long stems, exceedingly sweet scented.

YELLOW AND ORANGE

Duquesa de Penaranda. Intriguing color of orange-apricot, with deeper coppery tones, the huge, pointed buds are quite double, sweetly perfumed, long lasting. A strong grower with light green shiny foliage, 50c each.

Feu Joseph Looymans. Produces quantities of slender buds of buff-yellow, shaded vivid apricot in the center, opening to large, fairly full flowers. Seldom without blooms during the growing season. Moderately vigorous, tall, upright. One of the finest Roses of its color.

Golden Rapture. Produces the most perfectly formed bright yellow buds—not a pale yellow, but a glowing shining rich yellow without any shadings and the color does not fade. Has a pleasant fragrance. Growth is medium. There is no finer yellow Rose in its color class and is popular with everyone who sees it.

Mrs. Pierre S. Dupont. Everyone likes it for its cheerful profusion of bloom. Is extremely easy to grow, the dark green, glossy foliage being almost immune to mildew. Color is dark orange-yellow. Buds small but beautifully formed.

Sister Therese. Remarkably vigorous, free-branching. The long, tight buds are always perfect, with enough petals to keep well as a cut flower. Chrome-yellow buds tinged with carmine lighter yellow open blooms, spicily fragrant, with deeper tones of apricot and gold. 50c each.

POLYANTHA ROSES

EVER-BLOOMING BABY ROSES

Cameo. Produces large sprays in continuous succession of shell pink and salmon flowers showing a glow of gold. Very pretty.

Cecile Brunner. The miniature flowers of this old favorite, rose pink shaded salmon, fill a niche no other Rose can occupy. A strong grower too, and always in bloom.

Gloria Mundi. The little double flowers, like baby pompon chrysanthemums, have the brightest and most striking color in the Baby Roses—brilliant, luminous, orange-scarlet—borne in great clusters which almost cover the plant.

LOW HEDGE ROSES

Polyantha type Rose make brilliant everblooming edging. Can furnish small sizes for this purpose in red, pink, orange or white @ \$3.25 per 10; \$25.00 per 100. Not less than 10 of a variety.

CLIMBING ROSES

THEY WILL BLOOM THIS YEAR

40c Each; 6 for \$2.25; 12 for \$4.20

(Except as Noted)

POSTPAID to 4th Zone, beyond add 11c each.

After March 25th, In Pots and Cans, 50c Each
Not Postpaid

A climbing rose will produce as many flowers as a dozen bush roses. They may be trained against walls or fences and many of the vigorous growers will climb quickly into the branches of tall trees.

RED

Climbing Etoile de Hollande. In our opinion, the finest red flowered everblooming climber. A strong grower, it produces some of the finest big red buds and open flowers that we have ever seen or any Rose, and the blooms are larger and on longer stems than the bush Etoile de Hollande and possess the same delicious fragrance.

Paul's Scarlet Climber. (Improved.) An intense vivid scarlet, semi-double, very freely produced in clusters of 3 to 20 blooms on long much branched canes, the plant being a mass of color from top to bottom. The flowers do not fade and there is nothing to compare with it for striking effect.

PINK

Climbing Cecile Brunner. This famous climbing Rose, with its quantities of perfect miniature pink buds and flowers, is a favorite in California. Exceedingly vigorous, with dense handsome foliage. You can cut a bouquet of beautiful buds from it almost any time in the year.

Climbing J. Otto Thilow. A rich glowing rose-pink flower, with long-pointed buds opening out into a beautiful, large, double, high-centered flower with just about the most perfect form of any pink rose. Everblooming. 50c each.

Clg. Mme. Edouard Herriot. (Daily Mail) Brilliant coral-red buds opening to flowers of flaming pink and orange. Flowers are slightly larger and more brilliant than those of the bush type and equally floriferous. 3 yr., in gallon cans, only 75c.

Climbing Rose Marie. HT. The beautifully formed rose-pink flowers are larger than on the bush form; they are borne in greater profusion all during the spring, summer and fall and they are just as fragrant. 3 yrs., in gallon cans, only 75c.

YELLOW-GOLDEN

Climbing Mrs. Erskine P. Thom. Few will dispute the claim of Mrs. E. P. Thom to be one of the finest yellow bush Roses, and many will place it first. We have it now in a vigorous climber, multiplying many times the number of flawless yellow buds which can be produced on a bush type.

Climbing Ville de Paris. In the bright shining yellow shades this is the best of the Climbing Roses. The glossy, large, handsome foliage is not the least of its beauties, for it creates a splendid background for the unfading brilliant yellow flowers.

MULTI COLOR

Climbing Condesa de Sagato. This brilliantly colored Spanish Rose is now to be had in a climber. The large, cup-shaped flowers, fairly double and yet not too heavy, are glowing orange-scarlet on the inside and intensely bright yellow on the outside. Of breathtaking beauty, sweetly fragrant. 50c each.

Clg. President Herbert Hoover. Beautifully formed, large blossoms and very fragrant. A charming combination of cerise-pink, flame, scarlet, and yellow, with broad, thick petals, retained for days after the flowers have fully opened. The foliage is clean and handsome.

Climbing Talisman. It is difficult to imagine anything more striking than a fence or trellis covered with the lovely red and gold flowers of the much admired Talisman.

PLEASE MAKE A SECOND CHOICE

HARDY PERENNIALS

Postpaid to 4th Zone, Except as Noted.

ANCHUSA MYOSITIDIFLORA. Exquisite gem of clear blue for-get-me-not like flowers in airy sprays above large leathery leaves. Sun or shade. 15-in. wide by 18-in. high. 30c each, 3 for 75c.

BLEEDING-HEART. Dicentra spectabilis. The true old-fashioned kind, once found in every garden. Try it in your wild garden, in partial shade, or under trees. We offer finest roots with 3 to 5 strong eyes, 50c each.

CANNA ROOTS. Brilliant tropical appearing blooms on tall plant of luxurious green or bronze bold foliage. RED, PINK, APRICOT, VARIEGATED. 20c each, 3 for 50c; \$1.90 dozen.

Columbine. Long spurred hybrids. Mixed 25c.

Delphinium. Pacific hybrids, 2 yr., 35c.

Fern. Boston, for house, 85c; \$1.00, 125.

Fern. Woodwardia Giant, 35c to \$1.25.

GAILLARDIA. Ruby Gem. Rich red flowers without other color. Bloom all summer. Fine to cut. 35c each, 3 for \$1.00. **Portola** crimson tipped yellow. 15c each, 6 for 75c.

GERANIUM. For house or bedding. All doubles. **Radio**, glorious red. **Fuchsia**, red. **Aurora**, large, salmon. **Fiat**, clear salmon. **Mme Buckner**, white. Ivy or trailing; Pink, Lilac and White, Lavender. 3" pot 25c, 4" pot 40c.

Martha Washington (Pelargonium) Asstd. 50c.

GLADIOLUS BULBS. Beacon, scarlet and gold. Maid of Orleans, white. Minuet, lavender. Miss New Zealand, salmon pink. Picardy, salmon pink. Red Phipps, scarlet. Yellow Emperor, clear yellow. Morocco, darkest red. Giant No. 1 bulbs, 50c doz. Select Mixture, Giant No. 1, 40c doz.; \$2.95, 100.

Hemerocallis. Day lily. Bronzy Red. Div. 15c, 25c.

Iris. Japanese. 10 choice named varieties. 35c each, 3 for \$1.00.

Lily of Valley. 85c for 12 eyes; \$5.00 for 100.

Lily Regale. Extra large bulbs. 20c; \$2.00 per dozen.

PENSTEMON. Gloxinoides. Bright flowers of Foxglove shape, freely produced. Fine for cutting. 2 ft. high. Pink and white clumps, 25c. Garnet red clumps, 35c.

Penstemon menziesii. Low mound. Purple, 35c.

PEONY. Once planted they last a lifetime, responding yearly with magnificent flowers in May, June. Fertilize well, using small amount lime. Named varieties labeled to color only in Red, Pink, White. 40c each; 3, \$1.15; 6, \$2.20.

PERENNIAL PHLOX

Strong plants that will bloom this year.

Annie Laurie. Large trusses of salmon-pink.

Border Gem. Deep purple, does not fade.

Camellio Schneider. Deep velvety red. Free bloomer.

Caroline Vandenberg. New. Lge flowers, striking Blue.

Daily Sketch. Lustrous Pink, with Crimson-Rose eye.

Flora T. Reidy. Lge. lovely ivory-white.

Hauptmann Koehl. Glowing red, retaining color.

Leo Schlager. Huge flowers, Scarlet dark center.

Lillian. Exquisite pure Pink. Profuse large flowers.

P. D. Williams. Bright Pink, Rose center. Very fine.

Above are 25c each; 6 for \$1.50; 12 for \$2.50.

Aurora. Bright flame with orange glow.

Brilliant. Fiery scarlet with dark eye.

Cheftain. Ruby red on strong trusses.

Geo. Stipp. Glowing Salmon. Good size and quality.

Richard Wallace. Beautiful White with Crimson eye.

Special French. Fine blush-pink, salmon eye.

Above are 20c each; 6 for \$1.20; 12 for \$2.25.

Give You Nuts**

PRICE LIST OF FILBERT TREES

Our Barcelona trees are all propagated by layers from the ORIGINAL MOTHER TREE INTRODUCED INTO THIS COUNTRY BY THIS NURSERY IN 1879 AND WHICH STILL STANDS ON OUR GROUNDS. Our prices for these trees are very reasonable. All are heavily rooted transplants.

| Caliper | | Each | 10 | 100 |
|-------------------------------|-------------------|----------------|--------|--------|
| 4 yr., 6 to 8 ft., heavy..... | 1 in. up | Per each | \$2.00 | \$1.75 |
| 3 yr., 5 to 7 ft., heavy..... | 1 1/16 in. up | Per each | 1.50 | 1.25 |
| 3 yr., 4 to 5 ft..... | 1/2 to 1 1/16 in. | Per each | 1.00 | .85 |
| 2 yr., 3 to 4 ft..... | 7/16 to 1/2 in. | Per each | .85 | .75 |
| 2 yr., 2 to 3 ft..... | 5/16 to 7/16 in. | Per each | .75 | .65 |
| 2 yr., 1 1/2 to 2 ft..... | 1/4 to 5/16 in. | Per each | .55 | .45 |

The three smaller sizes have 1 year tops, 2 year roots.

5 Trees at 10 rate; 50 at 100 rate.

Above prices for Barcelona and DuChilly. Nottingham, 15c per tree higher. All our filberts are graded by caliper, except clumps. Plant 6 to 10 feet apart for hedges.

Barcelona in Bearing Size Clumps. We have the following clumps that have borne nuts, that are suitable for ornamental groups. Light \$1.25; medium heavy \$1.75; heavy \$2.50; extra heavy \$3.50.

SPECIAL OFFER FOR TRIAL PLANTINGS

Transportation PREPAID to 4th Parcel Post Zone

Offer No. 1—4 Barcelona, 2 to 3-ft. grade, 1 Pollenizer, 2 to 3 ft., 2 years...\$3.80

Offer No. 2—4 Barcelona, 1 1/2 to 2-ft. grade, 1 Pollenizer, 1 1/2 to 2 ft., 1 year 2.80

Offers Nos. 1 and 2 include trees, and tree protector for each tree, and Sales Tax in California.

No changes can be made in above offers. Five trees makes fine ornamental group.

Filbert Varieties

Barcelona. The best commercial and home variety; introduced and named by Felix Gillet. Our plants are therefore genuine, being direct from the original mother tree. Its value for the grower of market nuts lies in its heavy yield, large size, good appearance, strong growth and disease resistance. The nuts are not retained in the husks, and are fine quality. All drop to the ground over a period of three weeks during September. One inch broad by 3/4-inch thick. Round or nearly so, color brown, bright and handsome. Borne singly and in clusters of two to six. Must have a pollinator, see below. Will bear well in part shade.

Purple Leaf Aveline. A beautiful ornamental variety. Believed to be pollinated by Daviana. 40c to \$1.50 each.

***Nottingham.** Probably the best pollinator for Barcelona and DuChilly. Nuts are small but good flavor and tree bears regularly good crops. Trees of this variety are lighter grade than Barcelona, not being as vigorous a grower.

Prices on Nottingham are 15c higher than the list.

***Merville de Bollwiller.** A round, point-nut of good size and quality.

***DuChilly.** Large, over 1 inch long by 3/4-inch broad, flattened. Excellent quality, good bearer. It pollinizes Barcelona and is pollinized by Barcelona, Nottingham and Daviana.

*These varieties will pollinize Barcelona and will be sold only in connection with Barcelona.

PLANTING AND CULTURE OF FILBERTS

METHODS OF POLLENIZING

(A) Plant solid to Barcelona. After third year top, graft one limb of each tree to Nottingham or White Aveline. Then put in grafts scattered through the planting of DuChilly, Daviana, White Aveline, Cosford; either several or all, to extent of ten assorted pollenizers per hundred of Barcelona. We will furnish grafting wood of these varieties.

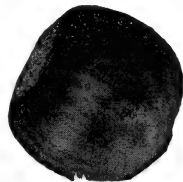

(B) Use 11% assorted pollenizers scattered through the planting, as shown above, to every hundred Barcelona. Every third tree in every third row planted to a pollinator is 11%. This method cuts down the number of Barcelona trees per acre and yield will probably be less than by first plan, or a combination of A and B.

SOILS FOR FILBERTS

They will grow in most any soil, shallow or deep, as they are shallow rooted. Best results are obtained on soils that are not heavily acid, but a slight acidity is not harmful.

DISTANCE APART TO PLANT

On good soils, plant 20 to 25 feet apart. On poorer soil, 16 to 18 feet. Either square or triangular planting is satisfactory. For windbreaks or hedge-rows, 6 to 10 feet.

Seed Grown Trees—Lots of 10 to 49, 10% less; 50 or more, 20% less than list.

COLOSSAL. Actual Size.

(Our Introduction)

COLOSSAL. Our introduction. An Asiatic hybrid. Extremely large nuts that FALL FREE FROM THE BURR. Ripens in September and brings high prices, being first in the market. Quality good. Quercy and French Marron pollinates it. Using 1 Quercy to 8 Colossals, this variety produces BIG PROFITS. The nuts are big, the crop is big, the profits are big. Matures nuts in September. Whole crop is down in 10 days or two weeks. Original tree produced 300 lbs. in 1939 and it is a small tree, compared with other chestnuts.

FOUNTAIN CHESTNUT

Here is a striking and unusual foliated tree, every leaf being different. Some only one-fourth inch wide but eight or nine inches long, giving trees remarkable fountain-like effect. Well branched specimens, 5 feet and up, \$2.50 each. Small trees, \$1.00 to \$1.75.

QUERCY — HEAVY BEARER

Quercy. A French Marron of large uniform size. Introduced many years ago by Felix Gillet. Nut is round and glossy, dark rich brown, selling instantly on its appearance. Of heaviest consistent bearing. The most precocious bearer we have ever seen. Sets burrs three months from the graft. Matures nuts late and is in prime condition for the holiday trade, it can be counted on to stack up tonnage and profits. 80% fall free from burr. Brought 30c lb. wholesale, 1942.

SEED GROWN TREES

Hybrid—These are from our Large American Sweet variety. Trees of this type are likely to produce fine new sorts. Most of them drop free from burrs and are of sweet taste.

Italian or Spanish—Seedlings of the European chestnut. While not so large as the Marron type, they bear good quality nuts of fair size and do well under severe conditions.

FRENCH MARRONS

These large and fine chestnuts are grown by us from selected seed which produce abundantly almost without exception. Often bear the third year from planting. Vigorous 1 and 2 year trees, priced above. **MAKES A SPLENDID SHADE TREES.** Select Trees, \$1.50 to \$2.50. These are nicely branched 2 and 3 year.

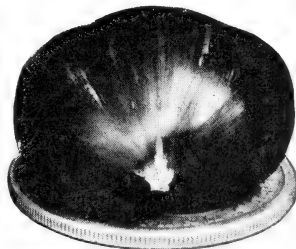

CHESTNUTS BEAR YOUNG — YIELD HEAVY

Requiring but occasional pruning, no spraying, no propping, no ladder climbing — **the Chestnut is produced at very low costs.** After the tree has been in three or four years no pruning is necessary. Let it grow naturally. Old trees should have the bushy growth removed from inside every four or five years. Grafted chestnuts bear young, sometimes the first year in the nursery.

How to Plant—On heavy, rich soil plant 60x60 feet. Poorer land 50x50, or if space is limited, 40x40. The chestnut requires plenty of light and air. Sixty feet between the rows and 30 feet apart in the row is the best plan. This takes 24 trees to the acre. Take out every other tree in row before they crowd. This plan allows inter-cropping of the wide row for a number of years. Seedling trees may be used for the interplants.

Planting—Dig holes 2x2 feet all around. With sharp knife remove broken roots and cut ends of all roots to sound wood. Remove all buds below ground-line. Plant tree not deeper than before. Use only top soil (well firmed with ball of foot) about the roots. Tie tree firmly to stake soon as planted. Set stake while planting to avoid driving it into roots. Cut back whip trees one-half and allow one strong shoot to grow to six feet where it may be headed. Branched trees cut back to 3 or 4 branches and head in branches to 3 buds from trunk. Encourage growth to one central leader, which is Nature's way. **DON'T TRAIN TO VASE FORM**, as trees will split apart with weight of the crop. Shade trunk for first few years with Yucca Tree Protectors (see page 12) or two thin boards.

Cross-Pollination—More than one variety should be planted, both for benefits of cross-pollination and to lengthen out the harvest season. Our Quercy and French Marron varieties have an abundance of pollen.

FRUIT TREES — GRAPES

— Prices Subject to Change —

This list of fruit trees has been selected for Home use and are all splendid sorts. Other varieties can be supplied in quantity.

APPLE

| | Each | 6 | 12 | 100 |
|--------------------------------|-------|-------|-------|-------|
| 2 yr. branched, 4 to 6 ft. ea. | \$.85 | \$.80 | \$.75 | \$.50 |

3 yr. heavy, 8 to 10 ft., branched, bearing size, \$2.50 each.

Except As Noted

Anoka—Wonderful new home use apple. Dwarf, ideal for dooryards. Bears in two years, and regularly, heavily. Early Summer. Red striped, good quality, 2 year branched 4 to 6 ft., \$1.00 each.

Grimes Golden. High quality yellow winter. Productive. 3 year trees, only.

Red Jonathan. Late fall. Early bearer, high quality and productive. In 2 year and 3 year.

Red Delicious—Early winter. A fine eating apple. Productive. 2 year only.

Red Astrachan—July. Early bearer, good cropper. Does well in interior valleys. In 2 year and 3 year.

Red Gravenstein—Red striped. Fall. Excellent quality. In 2 and 3 year.

Red Rome Beauty—Red. Winter. Best for baking. Blooms late. Early bearer. In 2 year only.

Red Siberian Crab. Summer. Best for jelly. 2 year only.

Winesap—Red. Late winter. Latest keeper of all. Good for all uses. 2 year only.

Winter Banana—Yellow with red blush. Late fall. Youngest bearer of all. 3 years only.

Yellow Belleflower—Fall, very aromatic. Bears best when planted with other sorts. 3 year only.

Yellow Delicious—Late fall. Preferred by some, as of fine flavor. 2 year only.

Yellow Newtown Pippin—Late winter. A fine keeper, cooker, shipper, producer. In 2 and 3 year.

Fruit trees of assorted kinds may be cumulated to take lower rate: thus 6 different kinds of fruit trees will be entitled to the six price for each class. 50 at the 100 rate.

CHERRY

| | Each | 6 | 12 | 100 |
|--------------------|-------|------|------|------|
| 1 year, 4 to 6 ft. | \$.75 | @.70 | @.65 | @.45 |

Royal Ann. The canning cherry. Pollenized by Black Tartarian. White with bluish cheek.

Black Tartarian—Large, of fine flavor. Self-fruitful. Bing—Very large, firm, fine quality. Pollenizer: Black Tartarian.

English Morello. Large dark red, rich and juicy. The best Sour Cherry for pies, jams, etc. Self-fruitful. Dwarfish, 2 year, 85c.

FIG

1-year, 4 to 6 ft. (Same price as 2 yr. apple.) All listed are Self-fruitful.

Brown Turkey. High quality large fruit.

Black Mission. Large and fine.

Kadota. White for preserves.

GRAPES

Grapes. For home use. No. 1 grade. Each, 20c; dozen, \$2.00; 100, \$10.00. Listed in order of ripening.

Thompson Seedless. August. Fine for arbors.

Ribier. September. Very large, blue black.

Muscat. Late September. Very sweet and rich.

Malaga. Late September. White. Crisp.

Olivette Blanche. Sept. Long, White. Fine eating.

Tokay. Flame red. October.

American Grapes CONCORD, black. DELAWARE, red. NIAGARA, white. All are high quality. Fine for arbors. Hardy. Used for grape juice, jelly and eating fresh. No. 1 grade. Each, 30c; six, \$1.50; dozen, \$2.75.

SPECIAL NOTICE

Due to scarcity of all fruit trees we reserve the right to substitute 1 year stock of same variety and size for 2 year, at the 2 year price, or if different size at proportionate price. Please specify second choice of variety if possible.

APRICOT—NECTARINE

| | Each | 6 | 12 | 100 |
|--------------------|-------|------|------|------|
| 1 year, 4 to 6 ft. | \$.75 | @.70 | @.65 | @.45 |

Apricot. Wenatchee Moorpark. Very large, productive and finest quality. Also Blenheim.

Nectarines. Gold Mine. White flesh. Red skin. Exceptional quality.

FREE 18-INCH TREE GUARD WITH EVERY FRUIT TREE

HYBRID BLUEBERRIES

Not huckleberries. Improved cultivated kinds. For best results plant 2 varieties in acid soil. Shipped with earth-ball. Weight 3 lbs. each. 3 year. Bearing size, 18 to 24 inch.

Grover. Large free bearing. Late, \$1.25.

Rubel. Medium size berry. Heavy bearers. \$1.25.

Un-named. But sure to please. 3 year. 18 to 24 inches, 90c.

5 or more 10% less.

See Blueberry article Sat. Eve. Post of September 12, 1942.

SET PLANTS WITH BARE ROOTS THIS WAY

- 1 SET PLANT SLIGHTLY DEEPER THAN IT STOOD IN NURSERY
- 2 SPREAD ROOTS OUT NATURALLY
- 3 SHAKE GOOD SOIL DOWN AMONG ROOTS. WORK IN WITH FINGERS
- 4 SHAKE TREE UP AND DOWN TO SETTLE DIRT
- 5 TREAD SOIL FIRMLY WHEN HOLE IS HALF FULL
- 6 FILL HOLE AND TRAMP SOIL. THE LIGHTER THE SOIL THE HARDER THE TRAMP
- 7 LEAVE LOOSE SOIL ON TOP OR COVER GROUND WITH MULCH
- 8 POCKET LEFT TO CATCH WATER
- 9 NOTE—MANURE, UNLESS WELL ROTTED AND THOROUGHLY MIXED WITH THE SOIL SHOULD BE USED ONLY ON TOP IF USED AT ALL.

FRUIT TREES (Cont'd.)

MEDLAR

Medlar. This tree fruit, about the size of a plum, is said to be very beneficial to rheumatic sufferers. Is quite ornamental, having attractive foliage, ruddy hues in the fall. Strong trees, \$1.50 each. Small size, \$1.00. Hardy to Central New York.

MULBERRY

Morus nigra. "Persian Mulberry." 15 ft. For fruit this is the variety you want, it has finest fruit of all, two inches long, juicy. Splendid for juice or preserves. 3 to 4 ft., \$1.25.

PEACH

Size and price as Apricot. See Page 12.

Babcock. White freestone. Delicious. Mid-season. Fine for Southern California.

Elberta—Yellow freestone. August. All around good peach.

Improved Elberta—Better in every way than old type. Yellow freestone. September.

Hales Early—White freestone. July. Best early eating peach.

J. H. Hale—Large yellow freestone. August. Canning or eating.

Krummel. October. Large yellow freestone.

Rio Oso Gem. Mid-season yellow freestone of very fine quality. (Add per tree 10c royalty.)

Rochester—August. Large. Yellow freestone. Finest quality.

Early Crawford. Yellow freestone. Hardy, heavy bearer. August.

Strawberry—White freestone. Popular. July.

Tuscan Cling. Best yellow cling for home canning.

Orange Cling—September. Yellow canning sort.

A Spectacular New

Raspberry

PRICED BELOW

Sodus Purple Raspberry. Here is something new! Large, rich purple berries. Nearly covering 25c piece. Borne in enormous sprays. Juicy, sweet, rich flavored, with good old raspberry aroma. Unexcelled for jams.

CHERRIES ON A BUSH!

(HANSEN BUSH CHERRY)

Yes, sir, no climbing. Early Bearing. Hardy. Prolific. Easy to grow. Eat fresh or in tasty jam. Ornamental, too. 12 to 18 inch, 50c. 18 to 24 inch, 75c.

PEAR

(2 Year, and 3 Year Branched—Same Price as Apple, See Page 12)

On French Pear Sorts

Bartlett—Well-known late summer sort.

Comice—High quality table fruit. Fall. This is the pear you see advertised in magazines under fancy names at fancy prices.

Seckel. Small size but of high vinous, spicy quality. Late summer and Fall.

PERSIMMON—POMEGRANATE

Hachiya, very large bright red. 2 to 3 ft., \$1.00.

Fuyu—This new persimmon is never puckery. Quite firm even when fully ripe. Fruits large, young and heavy bearer. 2 to 3 ft., \$1.00; 3 to 4 ft., \$1.25.

Pomegranate. Variety. Wonderful. Very large and juicy. High color. Glossy leaves. Scarlet flowers, quite ornamental. 3 to 4 ft., 50c; 4 to 6 ft., 65c.

PLUM—PRUNE

1-year. 4 to 6 ft. (Same price as Apricot, see page 12)

Apex. Very early. Sometimes called Plumcot.

Climax. Early cherry red. Fine quality.

President. September. Very large, dark blue, yellow flesh.

Green Gage. Greenish yellow for canning.

Imp. French Prune. Very sweet to dry, or eat fresh or can.

QUINCE

Smyrna. Large, tender, very fine. 75c each.

STRAWBERRIES WITHOUT TROUBLESOME RUNNERS

Rockhill Everbearing

High quality. Makes low, broad mound. Ornamental. Priced at bottom of this page. Big demand. Order Early. TRUE ROCKHILL.

ANOKA WONDER APPLE

Bears at two years. Hardy FINE EATING. Early Summer. Heavy Bearing. Dwarf. Ideal Dooryard TREE. Large 2 year branched trees. 4 to 6 ft., \$1.00.

THORNLESS BOYSENBERRY

Smooth as a kitten's ear. Same wonderful berry as thorny kind. Priced at bottom of this page.

Walnuts, Pecans and Other Nuts

FRANQUETTE WALNUT

WALNUTS

| | Each | 6 | 12 | 100 |
|---------------------------------|--------|---------|---------|----------|
| 8 to 10 ft.—2 yr. Branched..... | \$3.50 | | | |
| 6 to 8 ft..... | 2.00 | \$10.50 | \$19.80 | \$150.00 |
| 4 to 6 ft..... | 1.75 | 9.00 | 16.80 | 125.00 |

50 at the 100 rate.

Grafted on two-year Northern California Black. Others may quote lower prices on Walnuts, but the root-pruned trees we offer with many fine roots to enable the tree to quickly re-establish itself are worth the extra cost.

Vrooman Franquette. Very hardy, late blooming. Very large handsome nut of extra fine quality, commanding 5 cents per pound premium. Resists blight. Thomas Black (see below), will pollinate Franquette.

Lattin Franquette. Same as above but begins to bear younger.

Mayette. Nuts large, roundish, broad at base. Shell thin, kernel full, sweet and rich. A regular heavy bearer. Blooms earlier than Franquette, but later than Payne. 2 year only.

Cluster Mayette. A self-fertile good sized, good quality nut that blooms mid-season, with Eureka. Bears young. A good home orchard variety. Sets nuts in clusters of two to four. 6 to 8 ft. only.

SET BALLED PLANTS THIS WAY

TALL EVERGREENS SHOULD BE FIRMLY GUYED INTO POSITION.

GRAFTED BLACK WALNUTS

5 to 6 ft., each.....\$2.00

Grafted on Northern California Black Walnut.

Thomas. An improved Eastern Black Walnut. Cracks out the meat in whole or large pieces. Nut and kernel large, excellent quality. Abundant and early bearer. Thomas is rated as good pollinizer for Franquette. Hardy.

PECANS

Grafted Trees, 4 to 6 ft., \$2.75 each

Burkett. In California the trees that have come into bearing have borne very heavy crops. Nut is large, almost round, thin-shelled, the whole meat coming out very readily. A beautiful shade tree.

Pride of Merced. A large nut of excellent quality. Developed for California conditions. Interpollenates with Success.

Success. Large, oblong, medium thick shell, kernel of finest flavor. This variety and Burkett are said to bear well by themselves.

ALMOND

| | Each | 6 | 12 | 100 |
|---------------------------|-------|-------|-------|-------|
| 4 to 6 ft., per each..... | \$.75 | \$.70 | \$.65 | \$.45 |

Varieties — Ne Plus Ultra and Nonpareil, which should be planted together. Best kinds for home use. Other varieties can be furnished in large lots.

BUTTERNUTS

Juglans cinerea. The genuine old butternut that you have to "wrassel" to get the meat out. Makes a good shade tree. Meats are sweet and rich. 8 to 12 inch, 35c; 12 to 18 inch, 50c; 18 to 24 inch, 60c; 24 to 30 inch, 75c. 3 to 4 ft., 85c; 4 to 6 ft., \$1.00.

HICKORY NUTS

Shagbark. The sweetest nuts of all. Makes stately tree. Small one year trees, 25c each. Hickory nuts to eat, see below.

NUTS TO EAT

Postpaid to Fourth Zone.

| | 3 Lbs. | 5 Lbs. | 10 Lbs. |

| CHESTNUTS, Fall 1943 Dely..... | 1.20 | 1.75 | 3.00 |

CARE OF TREES

Unpack without exposing roots longer than necessary. Dig a trench in loose soil 2 feet wide, 14 inches deep. Cut strings and put trees in side by side; cover roots with fine earth, filtered in among the roots. Water well when the trench is half full; fill in trench.

Pruning Roots and Tops. With sharp knife trim off broken roots and bruised ends of roots of all deciduous trees and shrubs. The tops of deciduous trees and shrubs should be pruned in proportion to the amount of roots lost in transplanting. Usually remove 1/3 of top growth. Most evergreens from cans or that are balled need no pruning when planted. If requested to do so we will prune back all plants before shipping. Do not cut top off Birch trees.

The Importance of Staking. Tall deciduous trees should be firmly staked when planted.

After Care. Never let trees get dry during the first summer, often see that they get a thorough soaking. This is vastly better than giving them a little water at a time. Keep the ground around your plants and trees thoroughly loose. A good mulch is a great help.

Safety and Protection. In nearly all cases it is advisable to give the trunk of deciduous trees protection to guard against sunburn. This is done by giving the trunk a thorough whitewashing to the first branches and then placing the Tree Wraps listed on Page 12.

Wire Tags. Should be removed when planting or they will girdle tree.
